Supply Chain Delivery Performance | DataCo, 2015-2018

Orders	Late Rate %	Late Orders	Avg Actual Days	Avg Promised Days
63K	57.31%	36K	3.50	2.94

Market: All

Customer_segment: All

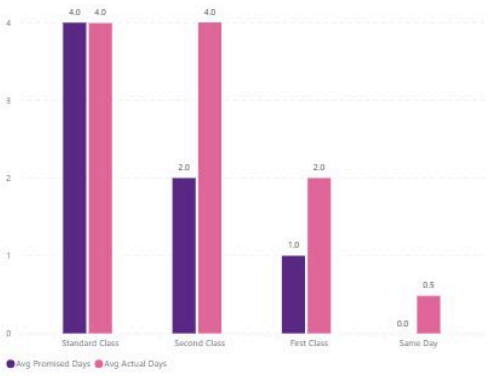

Shipping mode drives late deliveries : First Class is 100% late

Which shipping modes miss their delivery promise?

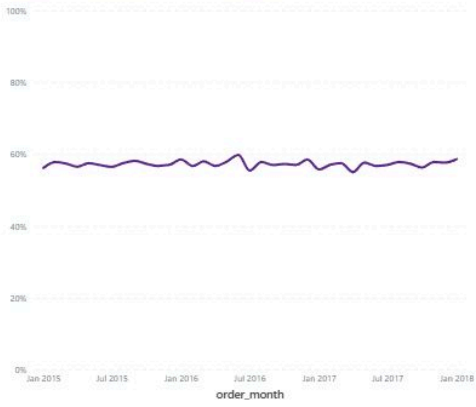

Promised vs actual delivery days by shipping mode

How far do actual delivery days drift from the promise?

Late rate by month: flat at 55-60%, no seasonality

Is lateness getting worse over time or by season?

Late deliveries are driven by shipping mode and unrealistic promises, not by region, segment or season.
